I am a senior at the University of California, Irvine, and will be completing my degree in Civil Engineering in Spring 2021. I chose to have a general specialization to get familiar with the different fields civil engineering has to offer. I particularly enjoy transportation and structures but took this route to experience all avenues of civil engineering. What excites me the most about the career is seeing the work produced come to life. Designing and creating products, infrastructure, and more that people can use gives me passion for a career in civil engineering.

## EDUCATION

JUNE 2017

**HIGH SCHOOL DIPLOMA**, BONITA HIGH SCHOOL

4.0 GPA

JUNE 2021

**CIVIL ENGINEERING**, UNIVERSITY OF CALIFORNIA, IRVINE

3.1 GPA

## SKILLS

- Great communication skills
- Creative thinker and problem solver
- Flexibility
- Ability to work in a team
- Self-Motivated
- Detail Oriented

## TECHNICAL SKILLS

- MS Excel & Word
- AutoCAD Experience
- TransCAD Experience
- Sketchup Experience
- Civil3D Experience
- EPANET Experience

## ACTIVITIES

- American Society of Civil Engineers Member
- Volunteered for San Dimas Canyon Nature Center
